4. Met with Bob Smart of the House Armed Services Committee staff and told him of the Director's telephone conversation with Mr. Vinson last week, in the course of which Mr. Vinson said he would have us up for another hearing soon. Mr. Vinson is now out of town and Smart indicated that we would probably have a hearing during the week of the 22nd of July. Smart inquired as to the status of our building and seemed dismayed when I told him that actual construction of the building had not as yet started. He feels that if there is too much delay on this Mr. Vinson is going to start wondering whether we really needed a building in the first place.
